BRAIN INJURY

Contents of Volume 3, 1989

Number 1, January–March

Editorial:
Recommendations for clinical and research evaluation of vocational re-entry programmes for survivors of traumatic brain injury
R. L. Conder 1

Original papers:
Processing of pragmatic and facial affective information by patients with closed-head injuries
C. M. J. Braun, J. M. C. Baribeau, M. Ethier, S. Daigneault and R. Proulx 5

Dysphagia with head injury
L. H. Field and C. J. Weiss 19

Vocational evaluation of traumatic brain injury patients using the functional assessment inventory
W. J. Mysiw, J. D. Corrigan, M. Hunt, D. Cavin and T. Fish 27

The response styles of post-acute traumatic brain-injured patients on the MMPI
J. M. Burke, S. A. Smith and C. L. Imhoff 35

Case studies:
Aphemia associated with bilateral striato-capsular lesions subsequent to cerebral anoxia
B. E. Murdoch, H. J. Chenery and M. Kennedy 41

Hypothermia and severe head injury
R. D. Strachan, I. R. Whittle and J. D. Miller 51

Heterotopic bone formation involving wrist and fingers in brain-injured patients: A report of three cases
L. Sazbon and Z. Groswasser 57

Acute subdural haematoma mimicking an epidural haematoma on a CT scan
S. A. Hurvitz, L. R. Stone, M. A. E. Keenan and R. L. Waters 63

Comparing motivational systems with two non-compliant head-injured adolescents
A. Zencius, M. D. Wesolowski and W. H. Burke 67

Behavioural and cognitive changes in traumatic brain injury: a spouse's perspective
E. D. Bigler 73

Programme development:
A family information system for education following traumatic brain injury
J. Eisner and J. S. Kreutzer 79

Catastrophic case management: thoughts from a teacher/consumer/advocate
G. W. Bush 91

Letter to the Editors:
Behaviour therapy in the rehabilitation of brain-injured individuals
I. D. Turkat and G. W. Behner 101

Book reviews 103

Number 2, April–June

Editorial:
Who should receive prophylactic antiepileptic drug following head injury?
J. M. Pellock 107

Review essay:
Frontal lobe function
M. Bowen 109

Original papers:
Extraction of angiogenesis factor from chronic subdural haematomas. Significance in capsule formation and haematoma growth
S. Nakamura and T. Tsubokawa 129

Practice of prophylactic anticonvulsant treatment in head injury
N. Soroker, Z. Groswasser and H. Costeff 137

Sensory stimulation of severely brain-injured patients
M. A. Rader, J. B. Alston and D. W. Ellis 141

Carbamazepine replacement of phenytoin, phenobarbital and primidone in a rehabilitation setting: effects on seizure control
B. A. Wroblewski, M. B. Glen, J. Whyte and W. D. Singer 149

Do young patients have worse outcomes after severe blunt head trauma?
I. V. Thomsen 157

Remediation of attentional difficulties following brain injury: three experimental single case studies
J. M. Gray and I. Robertson 163

Coping strategies and adjustment after closed-head injury: a cluster analytical approach
A. D. Moore, M. Stambrook and L. C. Peters 171

Psychosexual consequences of traumatic brain injury: methodology and preliminary findings
J. S. Kreutzer and N. D. Zasler 177

Convergence insufficiency in brain-injured patients
M. Cohen, Z. Groswasser, R. Barchadski and A. Appel 187

Rating communication behaviours in the head-injured adult
J. Ehrlich and P. Barry 193

Antecedent control in the treatment of brain-injured clients
A. H. Zencius, M. D. Wesolowski, W. H. Burke and P. McQuade 199

Case study:
Recovery in non-vascular locked-in syndrome during treatment with Sinemet
N. Rao and J. L. Costa 207

Book review 213

Number 3, July–September

Editorial:
Severe head injuries—Swedish style
B. Jennett 215

Review:
Impact of traumatic brain damage on family dynamics and functioning
V. Florian, S. Katz and V. Lahav 219

Original papers:
Alcohol and other predictors of cognitive recovery after severe head injury
N. Brooks, C. Symington, A. Beattie, L. Campsie, J. Bryden and W. McKinlay 235

Severe traumatic brain lesions in Sweden. Part I: Aspects of management in non-neurosurgical clinics
C.-H. Nordstrom, K. Messeter, G. Sundbärg and S. Wåhlander 247

Severe traumatic brain lesions in Sweden. Part 2: Impact of aggressive neurosurgical intensive care
C.-H. Nordström, G. Sundbärg, K. Messeter and W. Schalén 267

Severe traumatic brain lesions in Sweden. Part 3: Economic aspects of aggressive neurosurgical intensive care
G. Sundbärg, A. Norlund, C.-H Nordström and K. Messeter 283

Ten cases of head-injured, suicide-surviving adolescents: Challenges for rehabilitation
D. X. Parmelee, R. A. Kowatch, J. Sellman and D. Davidow 295

Relationships among pre- and post-injury intelligence, length of coma and age in individuals with severe closed-head injuries
S. Dickerson Mayes, L. E. Pelco and C. J. Campbell 301

Case Study:
Hypercalcaemia causing declining cognitive function in a head injured patient
G. Seliger, F. Cosman, G. M. Abrams and R. Lindsay 315

Letter to the Editors:
The use of Sinemet and bromocriptine
P. Eames 319

Reply to Eames
S. Lal, C. T. Merbitz and J. C. Grip 321

Book review 323

Number 4, October–December

Editorials:
Defining outcome
N. Brooks 325

Employment outcomes of persons following traumatic brain injury
N. D. Zasler 331

Review:
Review of tests of standing balance abilities
R. Newton 335

Original papers:
Does severe traumatic closed head injury impair sense of humour?
C. M. J. Braun, F. Lussier, J. M. C. Baribeau and M. Ethier 345

Head injury, an empirical study: Describing long-term productivity and independent living outcome
D. R. Vogenthaler, K. R. Smith Jr. and P. Goldfader 355

Head injury, a multivariate study: Predicting long-term productivity and independent living outcome
D. R. Vogenthaler, K. R. Smith Jr. and P. Goldfader 369

Comparing patient perspectives of disability and treatment effects with quality of participation in a post-acute brain injury rehabilitation programme
R. J. Heilbronner, J. R. Roueche, S. A. Everson and L. Epler 387

Employment outcomes of persons following traumatic brain injury: pre-injury, post-injury, and supported employment
P. Wehman, J. Kreutzer, M. West, P. Sherron, J. Diambra, R. Fry, C. Groah, P. Sale and S. Killam 397

Visual imagery as a cognitive means of compensation for brain injury
J. M. Stern and B. Stern 413

Announcements 421
